## Communications Excellence for Small Business

At XBLUE Networks we concentrate on one absolute goal; providing outstanding, unparalleled value to small business. As a result of this exclusive focus we design and produce the best communications system solution for your business.

Designed and engineered with the latest in Digital technology, XBLUE Networks' **X16** Small Office delivers a new, powerful level of communications sophistication and efficiency. The innovative features of the **X16** Small Office allow you to communicate more effectively than ever before.

And, by utilizing enhancements in Digital technology, we can provide the best communications solution for your small business at the most economical cost.

### Combine Substance and Style with the X16 Small Office Digital System

*Red Mahogany*

Express your own style with the innovative and attractive Designer Series Telephones.

*Vivid XBLUE*

Headset Jack

New Messages  
status at a glance

Navigation Keys provide  
easy access to features

Stunning Blue Backlit Display

Personalized Feature Buttons

One Touch Intercom Calling  
Busy Telephone Indication  
Speed Dialing  
and many more

High Quality Speakerphone

XBLUE Vivid Light  
blue and green LEDs

One touch record of live  
phone conversations

Every **H16** digital telephone is an exceptional quality speakerphone and provides an easy to read interactive LCD display.

Use the LCD interactive buttons to access your own personal phone book entries, review Caller ID information or look at your Call Log of outgoing calls.

And to make the telephone the easiest to use in the industry, helpful navigation keys let you scroll through and easily access the **H16's** abundant feature offering.

When you are away from the office, use the external call forward feature to make sure you don't miss important calls.

Since Auto Attendant and Voice Mail are standard features of the **H16**, use the one touch record feature to record real time conversations.
